## How to Cut Equilateral Triangles

1. Select triangle size.

2. Take the blade board that corresponds with the triangle size you wish to cut.

3. Place the blade board in your Studio™ die tray, FOAM SIDE UP.

4. Take the inner foam boards and fill in the center of the blade board.

5. Take the foam board that is one size larger than your blade board and place it as the outer ring.

6. Apply fusible web if desired. Layer or fanfold your fabric. You can cut up to 10 layers of 100% cotton fabric at a time.

   TIPS: Fusible web counts as one half layer of fabric. Remember to position the fabric on the lengthwise grain, with the selvage edge towards the Studio handle, as it goes under the roller.

7. Place your Studio Cutting Plastic on top.*

8. Roll through the Studio™ Fabric Cutter.

Roll through the Studio

For most accurate cuts, arrange the triangle dies in the corner of the cutting tray, at a slight angle with the die touching two sides of the tray and notches facing roller.

The innovative technology of Bullseye™ Nested Dies will change the way you quilt! With one set of blade boards and one set of foam boards, you can create multiple die combinations to cut full shapes, rings and more! Expand your collection while saving time, money and space! Mix, match and layer Bullseye™ dies for a wide range of possibilities.

Add the Bullseye™ Equilateral Triangles-Even Die Set (50368) and the Bullseye™ Hexagons Die Set (50362) to your collection and get an infinite number of triangle and hexagon options!
