Fabric Cutting Tips for a 2-color, 9" finished Crossed Canoes block:

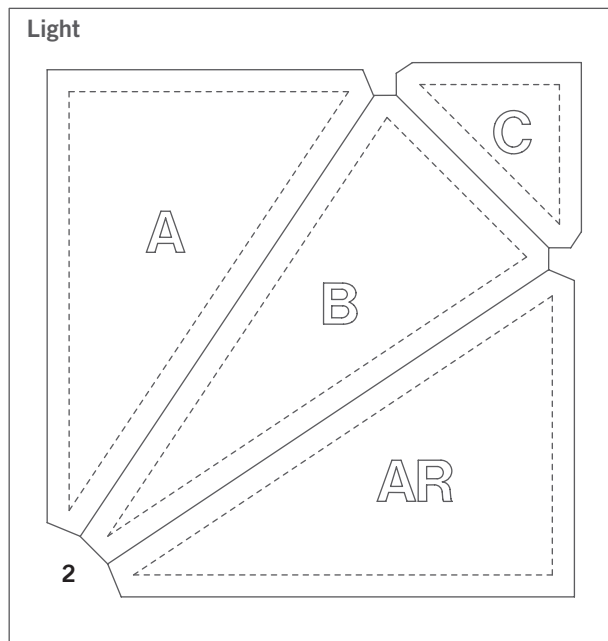

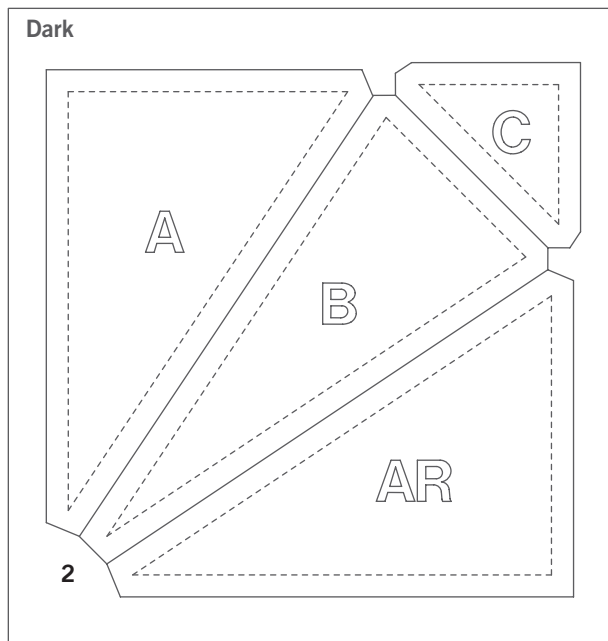

Place fabric over shapes then run through the cutter:

For best cutting results, position fabric on the lengthwise grain (straight of grain) as it goes under the roller.

- **TIP:** To create a two-color Crossed Canoes Block: Cut two layers of one fabric color and two layers of contrasting fabric color at a time.
- Cut 6¼" x width of fabric (WOF) strips. Fanfold into 6¼" widths. Place on selected blade and cut. For a two-color design, six cuts across the width of fabric yield enough pieces for six complete blocks. One yard of 40" wide fabric in each color will yield 30 blocks.
