Fabric Cutting Tips for a 2-color, 8" finished Maple Leaf block:
Place fabric over shapes then run through the cutter:

For best cutting results, position fabric on the lengthwise grain (straight of grain) as it goes under the roller. Tip: The die is specially designed to cut one 2-color, Maple Leaf block in one pass through the cutter.

- **Fabric Color 1:** Cut three 3¾" squares and place over shape A and cut. Cut two 4⅛" squares and place over shape B to cut. Cut one 3¾" square and place over shape D to cut.
- **Fabric Color 2:** Cut one 3¾" square and place over shape A to cut. Cut two 4⅛" squares and place over shape B to cut. Cut one 3¾" square and place over shape C to cut.
- *Tip:* You also can cut scrappy 8" Maple Leaf blocks in one pass through the cutter. Follow steps above for number of layers but cut different fabric colors at a time.
