

## GO!® Can Cozy

Item Number: 55933

### How to Assemble & Sew GO! Can Cozy:

#### Step 1

Cut a 6¼" x 11¼" rectangle out of insulated batting and two pieces of fabric. Sandwich insulated batting between fabric with fabric facing right sides out. Quilt as desired.

#### Step 2

Lay sandwiched pieces on the die over the blades. Cut one shape.

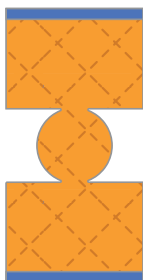

**TIP** Use cotton fabric and a heat-resistant batting such as Insul-Bright® to keep drinks hot or cold longer.

Quilt the fabric/batting sandwich prior to cutting. Cut only one quilted sandwich at a time.

Use June Tailor® Basting Spray (JT-440) to keep layers in place while quilting.

Use the GO! Strip Cutter-2½" (2" Finished) (55017 or 55014) for binding.

#### Step 3

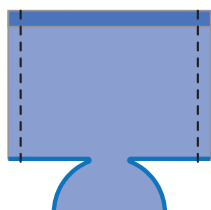

Bind top and bottom edges as desired.

#### Step 4

Stitch around interior edges with a satin, blanket or other desired stitch.

#### Step 5

Fold cozy in half right sides together and align edges. Sew two side seams with a ¼" seam allowance. Back stitch at the beginning and end for extra durability.

#### Step 6

Turn cozy right sides out and enjoy!
