T-Shirt Transformation Ruler Instructions

Center, mark and cut perfect t-shirt sections for
quilt blocks, tote bags and pillows.

1. Cut t-shirt at sides and remove the sleeves and neck line.
2. Pre-determine what the finished size of your block will be; either 10", 12" or 15" square or a combination of these dimensions to form a rectangle.
3. Cut fusible interfacing at least 1" larger than your finished block size determined in the previous step. Following the manufacturer's instructions, apply the interfacing to the back of the t-shirt, centering it behind the design.
NOTE: Cover t-shirt design with a pressing cloth prior to fusing the interfacing to prevent damage to the t-shirt design or iron.
4. Using markings on the ruler, center ruler on t-shirt design.
For 15 ½" dimension, mark or rotary cut on outside edges of ruler.
For 12 ½" or 10 ½" dimensions, mark in corresponding slots, then slide ruler to markings and rotary cut.
5. Use finished t-shirt blocks as desired to create your one-of-a-kind t-shirt quilt or project.
